BACKUP, ACCESS & SHARE YOUR CONTENT

ONLINE BACKUP

A simple and easy way to backup your content, access it securely from anywhere on the web and share it directly with friends or through social media.

F-Secure® Online Backup™ is an easy-to-use and fully automated backup/restore, access and share solution. All your important files are stored securely online, with no limit on the amount of data you can backup*. Our intuitive web portal enables safe and easy access to your backed-up pictures, documents and other digital content from anywhere over the Internet.

Be honest, Is your digital content safe if your hardware is lost or malfunctions?

Wrong. Everyone knows that taking regular backups is important but few of us have the time or the expertise required to set up a working system to take care of this important aspect of data security.

Let us do it for you - automatically

F-Secure Online Backup relieves you from having to remember to take frequent backups of your pictures, music and other important content. It works automatically in the background, whenever you are connected to the Internet, backing up all your important data safely online. You can easily restore your files, either automatically or by selecting the files you need.

Key Features

Backup, Access and Share.

Unlimited, secure online backup

All important content on your PC is stored securely online, with no limit on the amount of data you can backup*. The files are securely stored and transferred securely to online data centres. Because F-Secure Online Backup securely stores your data online, you also safeguard your files against possible computer failure or loss/theft. Backup DVDs or using external hard drives do not offer this added benefit.

Simply install and connect to the Internet, F-Secure Online Backup will take care of the rest. You will also receive regular e-mail reports on your backup status.

Easy personal access

The intuitive web portal enables safe and easy access to your backed-up pictures, documents and other digital content from anywhere over the Internet. You can also view your digital photos or play your music or videos with the built in media player. Backup DVDs or using external hard drives do not offer this added benefit.

Sharing of your backed up content

You can easily share any content you have backed up with only a couple of clicks. Share directly with a friend or send to your chosen social media platform. Backup DVDs or using external hard drives do not offer this added benefit.

A Backup Solution You Can Trust

F-Secure has a history of 20 years specializing in IT security and has become a globally recognized player in the Internet security and mobile security markets. The company's outstanding technological innovation in the face of constantly evolving security threats has attracted both international accolades and respect within the industry.

Easy to Install and Use

F-Secure Online Backup is extremely easy to install and use. It is fully automated, working in the background whenever you connect to the Internet. It also keeps you up to date on your backup status with regular e-mail reports.

* F-Secure Online Backup allows you to back up all files on your hard drive, regardless of the number of files. This service does not cover external hard drives or devices such as USB keys.
