

30.09.2018

SUPPORT FOR F-SECURE® CLOUD PROTECTION FOR SALESFORCE 1.3.X ENDING

Support for F-Secure Cloud Protection for Salesforce versions 1.3.4 and older will come to an end on 31 October 2018, after which we cannot guarantee the functionality of the product series.

The replacing product is **F-Secure Cloud Protection for Salesforce, version 1.5.1**.

As Cloud Protection for Salesforce versions 1.3.4 and older will not be fully compatible with the upcoming Salesforce Winter'19 release, F-Secure highly recommends that you upgrade to the newest version as soon as possible. We cannot guarantee full protection and functionality when the old product is used on a new Salesforce platform.

An up-to-date list of supported product versions is available at:

http://www.f-secure.com/en/web/business_global/support/supported-products

Yours sincerely,
F-Secure Corporation
