SUPPORT FOR F-SECURE® MOBILE SERVICES PLATFORM ENDING

Effective 31 March 2022, we will be closing the Mobile Services Platform which is used to provision and license the F-Secure Mobile Security product.

This in effect means the End of Life of the F-Secure Mobile Security product in all forms.

B2B Partners and customers who have been using the F-Secure Mobile Services Platform will have to migrate to the F-Secure Elements solution, which brings the following benefits

- Central Management via the F-Secure Elements Security Center
- Ability to secure network connections with a VPN connection
- Easier deployment and maintenance of new client versions

F-Secure will ensure that partners have the required accounts and subscriptions on the F-Secure Elements solution, and will provide migration instructions for partners and end customers.

We regret any inconvenience that this causes to our partners and end customers, but it is a necessary step to ensure we can provide the best products and protection in the future.

Yours sincerely,
F-Secure Corporation
