# General governing principles

F-Secure's corporate governance practices comply with applicable Finnish laws as well as the rules, regulations and guidelines of NASDAQ Helsinki Oy and the Finnish Financial Supervisory Authority. This statement has been prepared in accordance with the Finnish Corporate Governance Code (publicly available at <http://cgfinland.fi/en/>) issued by the Securities Market Association of Finland in 2015.

Up-to-date information about F-Secure's governance is available on the Company's website at [www.f-secure.com/investors](http://www.f-secure.com/investors).

**2016:** In July, governance of insider issues was updated to comply with the new Market Abuse Regulations (EU, N:o 596/2014, "MAR"), effective as of 3 July 2016. More information is available in the "Insider issues" section of this statement.

## Governing bodies

F-Secure's ultimate decision-making body is the General Meeting of Shareholders. The Board of Directors is responsible for F-Secure's strategy and overseeing and monitoring the Company's business. The CEO, assisted by the Leadership Team, is responsible for managing the Company's business and implementing its strategic and operational targets.

## General Meeting of Shareholders

Under the Limited Liability Companies Act, shareholders exercise their decision-making power at the General Meetings.

The General Meeting is normally held once a year as an Annual General Meeting (AGM). A shareholder may propose items to be included on the agenda provided they are within the authority of the meeting and the Board of Directors has been informed of the requests in due time. The invitation to the AGM is published on the Company's website.

The AGM decides on matters stipulated by the Company's Articles of Association and the Limited Liability Companies Act, including:

- the adoption of the Financial Statements
- the distribution of profit for the year
- discharging the members of the Board of Directors and CEO from liability

- the selection of members of the Board and the decision on their remuneration
- the election of the auditor and the decision on auditor's remuneration, and
- other proposals made by the Board or shareholders

Each share carries one vote in the General Meeting.

**2016:** The AGM was held on 7 April 2016 at F-Secure premises in Helsinki.

Further details on the resolutions by the AGM are available on the Company website (release published on 7 April 2016) and in the Board of Directors report in the Annual Report.

## Board of Directors

The objective of the Board of Directors is to direct the Company with the aim of achieving the best possible return on invested capital for shareholders in the long term.

The Board's responsibilities and duties are defined in detail in the Board's Charter (available on the Company website) and cover the following main areas:

- approving the strategy of F-Secure, overseeing its operations and annual budgets
- approving any major investments, acquisitions, changes in corporate structure or other significant decisions
- ensuring that the supervision of the Company's accounting and financial management is duly organized
- ensuring that internal control and risk management systems are in place
- approving personnel policies and rewards systems
- preparing matters to be handled by the General Meeting

- 1) *Risto Siilasmaa is the founder of F-Secure and on 31 December 2016 owned 37,76 % of F-Secure shares.*
- 2) *Janne Pirttilahti was elected from F-Secure Corporation's personnel, according to the process described below.*

The Board of Directors meets as frequently as necessary, at least five times during its term. The Board of Directors has quorum when more than half of the members are present. An annual self-assessment is carried out by the Board to evaluate its operations.

In accordance with F-Secure's Articles of Association, the Board of Directors comprises three to seven members, which are elected at the Annual General Meeting for a period of office that extends to the following AGM. The majority of Board members shall be independent from the Company and from its major shareholders.

One member of the Board of Directors is elected from F-Secure Corporation's personnel in the following manner: an election is arranged for F-Secure personnel. Each permanent employee of F-Secure Corporation is eligible as a candidate. The Executive Committee interviews three persons who have obtained the highest number of votes in the elections, and chooses a candidate from amongst them to be proposed for election as a new member of the Board by the Annual General Meeting.

The Board's Executive Committee prepares the proposals for board candidates to be approved by the shareholders at the General Meeting. Proposals are based on candidates' skills and qualifications and on maintaining diversity on the Board of Directors. Currently both genders are represented in the Board of Directors.

For a detailed description of the members of the Board of Directors and their shareholdings see pages 12-14.

## Board Committees

The Board has two permanent Committees: Audit Committee and Executive Committee (nomination and remuneration issues). The duties of both Committees are defined in their charters, available on the Company's website.

### **Audit Committee**

The Audit Committee reviews, instructs and evaluates risk management, internal controls, IT strategy and practices, financial reporting as well as auditing of the accounts. The Audit Committee also prepares proposal for the election of auditor to the Board of Directors and regularly considers the need for a separate internal audit function. Members of the Audit Committee must have broad business knowledge, as well as an adequate knowledge of and experience in financial and supervisory matters.

Members of the Audit Committee are listed in the table in the previous section. According to the Finnish Corporate Governance Code, majority of the members of an audit committee must be independent of the company.

**2016:** The charter of the Audit Committee was revised. While previously the Audit Committee directly proposed the election of the auditor to the Annual General Meeting, the Committee now prepares the proposal for the Board of Directors.

### **Executive Committee**

The Executive Committee prepares material and instructs with issues related to the composition and compensation of the Board of Directors and the remuneration and incentives of key managerial personnel. The Committee also prepares the proposals for the Board composition and remuneration for the Annual General Meeting of Shareholders.

Members of the Executive Committee are listed in the table in the previous section.

## President and CEO

The Board of Directors appoints the CEO and decides upon his/her remuneration and other benefits. The CEO is responsible for the day-to-day management of the Company. His/her duties include:

- managing the business according to the instructions issued by the Board of Directors
- presenting the matters to be handled in the Board of Directors' meetings
- implementing the decisions made by the Board of Directors
- other duties determined in the Limited Liability Companies Act

For a description of the CEO and his shareholdings see page 15 and for his remuneration see Annual Report, Notes to financial statements, 28. Related party disclosures.

## Leadership Team

The Leadership Team supports the CEO in the daily operative management and development of the Company. The CEO appoints the Leadership Team members and decides upon the terms and conditions of their employment.

## Controls and other governance issues

Main features of internal control and risk management systems pertaining to the financial reporting process

### Risk management

Risk management is used as a tool to help managers make better risk-balanced decisions in an uncertain environment. The objective of F-Secure's risk management is to ensure a current, correct and comprehensive understanding and prioritized management of key uncertainties related to strategy implementation and business operations.

The foundation for risk management is defined in the Company's Risk Management Policy. The Board of Directors approves the Risk Management Policy and determines the Company's overall attitude towards risks. The Board of Directors and its Audit Committee monitor the Company's key risks and related controls and the effective implementation of the policy. The Audit Committee annually conducts a key risk review and evaluates the

effectiveness of the risk management framework. The risk management framework consists of risk management responsibilities, related policies, operating principles and tools.

The CEO and Leadership Team are accountable to the Board for approving the Company's risk management standards and ensuring that they are applied in a consistent manner across the organization. The Leadership Team conducts a Company-level risk review biannually as part of the operational planning and approves the Company-level risk profile.

The Corporate Risk Management function provides and maintains a process to identify, analyze, evaluate, and treat risks. Risk assessment is regularly conducted and aligned with the Company strategy process and annual operational planning. Risk management processes follow an annual cycle including both top-down and bottom-up reviews.

The same tools are applied to assess uncertainties related to key projects and business decisions, e.g. M&A transactions, major investments and new business initiatives.

## Major risks

Risks are defined as uncertainties which can impact the achievement of the Company's short and long term objectives. Risks are assessed as a combination of probability and impact. F-Secure uses the following categories to group the risks: strategic, operational, financial and compliance risks.

The most significant risks for F-Secure are related to the following factors:

- Volatility of the economic environment and its potential impact on business volumes
- Security market transformation and changes in customer demand
- Changes in the competitive environment
- Potential loss of key customers and partnerships
- Failure to attract and retain required human capital
- Competitiveness of F-Secure's product portfolio in the rapidly changing market
- Intellectual property (IPR) claims against F-Secure
- Risk exposure from contractual liability requirements
- Failure to successfully complete acquisitions or divestments
- Failure of new product launches
- Potential security threats related to F-Secure's products and services
- Credit risk due to regional political or financial climate and regulation
- Tax risk relating to changing laws and regulations and interpretations of said regulations by the relevant authorities

### **2016:**

F-Secure adopted a new risk modeling method with the aim of more accurately capturing all elements of operational security risks. The latest risk assessment cycle was started using the new method and focusing on key assets.

## Internal control

The purpose of Internal Control is to ensure that operations are effective and aligned with the strategy, and that financial reporting and management information is reliable and in compliance with applicable regulations and operating principles.

Internal control consists of all the guidelines, policies, processes, practices and relevant information about organizational structure that help ensure that the business conduct is in compliance with all applicable regulations. The purpose of internal control is also to ensure that accounting and financial information provides a true and

accurate reflection of the activities and financial situation of the company. Actual performance is monitored against sales and cost targets by operative reporting systems on a daily, weekly, or monthly basis.

The Company constantly monitors its key financial processes linked to sales, revenue, costs and profitability as well as incoming and outgoing payment transactions. If any inconsistencies appear, the issues are handled without delay. The Company's finance department is responsible for the consistency and reliability of internal control methods. The finance team works in close cooperation with the CFO and business units, providing relevant data for business planning purposes and sales estimates. The team also regularly assesses and monitors the reliability of estimates and revenue recognition.

**2016:** F-Secure commenced a comprehensive project to renew its IT systems for finance and HR. The project involves also a review, further development and documentation of internal processes and controls to be applied with the new systems. The implementation of the new systems and processes is planned for 2017.

## Internal audit

F-Secure's Audit Committee considers regularly the need for and appropriateness of a separate Internal Audit function. To date, the Audit Committee has concluded that, due to the size, organizational structure and largely centrally controlled financial management of the Company, a separate Internal Audit function is not necessary.

In the absence of an Internal Audit function, attention is paid to periodical review of the written guidelines and policies concerning accounting, reporting, documentation, authorization, risk management, internal control and other relevant matters in all departments. Related controls are also tested from time to time. The guidelines and policies are coordinated by the Company's finance department with active involvement by the legal team.

The absence of a separate Internal Audit function is considered when defining the scope of the Company's external audit. Where necessary, the Board may also purchase Internal Audit services from an external provider.

To facilitate transparency and exchange of information on Internal Audit related matters, the financial management team has frequent meetings with the auditors. The Audit Committee also meets regularly with the auditors and head of the Company's legal team to discuss related matters of their areas of responsibility.

The Company has taken into use two direct lines for all employees to notify the Board and Leadership Team of any unethical activity or abuse.

## Insider issues

F-Secure's IR-function is in charge of the company's insider issues, with the exception of project based insider issues, which are managed by the Legal department. The Company follows the insider regulations of NASDAQ Helsinki Oy and has adopted the new Market Abuse Regulations (EU, N:o 596/2014, "MAR"), which came into force on 3 July 2016. F-Secure has published an internal guideline on insider issues and regularly trains employees and management on insider issues.

### Insider registries

Until 2 July 2016, F-Secure maintained three separate lists of insiders:

- permanent public insiders including the members of the Board, the auditors, CEO and the Leadership Team of the company
- permanent company-specific, non-public insiders, including persons who by virtue of their position or tasks learn inside information on a regular basis
- project-based insiders (maintained by the Legal team)

As of 3 July 2016, F-Secure maintains three separate lists of insiders and other persons relevant for insider issues:

- project based insiders (maintained by the Legal team)
- list of persons discharging managerial responsibilities, as well as persons closely associated with them, as specified by MAR
- other insiders, including people participating in the preparation of financial reporting or otherwise having access to significant non-published financial information.

### **Managers' transactions**

Persons discharging managerial responsibilities ("Managers") comprise the Board of Directors, the CEO, the CFO and the heads of F-Secure's three business units (Corporate security, Consumer security, Cyber Security Services). These persons have a duty to notify within three business days F-Secure and the Finnish Financial Supervisory Authority of every transaction in their own account relating to Financial Instruments of F-Secure. The Company shall publish these notifications as a stock exchange release, as specified by MAR. All releases published on managers' transactions are available on the Company's website.

### **Closed window**

All insiders or their interest parties are not entitled to trade shares, options, or other securities 30 days prior to the publication of financial reports. Additionally, project-based insiders are never entitled to trade shares, options, or other securities during the duration of an insider project, including the day the insider information is made public.

### **Silent period**

F-Secure observes a silent period of 21 days before each quarterly report announcement. During the silent period, the Company will arrange neither meetings nor conference calls with the investor community.

**2016:** In July, governance of insider issues was updated to match the new Market Abuse Regulations (MAR), effective as of 3 July 2016.

## Auditors

The auditor is elected by the Annual General Meeting for a term of service ending at the close of the next Annual General Meeting. The auditor is responsible for auditing the consolidated and parent company financial statements and accounting. The auditor reports to the Board of Directors or the Audit Committee at least once a year.

### **2016:**

F-Secure has been audited by PricewaterhouseCoopers with Janne Rajalahti, Authorized Public Accountant, as the responsible auditor.

F-Secure paid to the auditor EUR 144,500 in audit fees (2015: EUR 160,593), and EUR 77,280 (2015: EUR 205,249) for non-audit services.
