About F-Secure Corporation

F-Secure Corporation protects consumers and businesses against computer viruses and other threats from the Internet and mobile networks. We want to be the most reliable provider of security services in the market. One way to demonstrate this is the speed of our response.

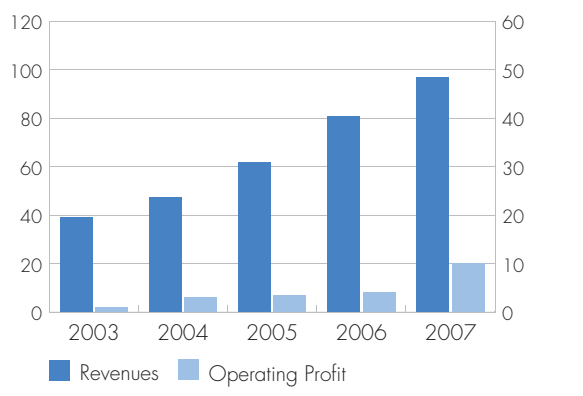

F-Secure's award-winning solutions are available as a service subscription through more than 160 Internet service providers and mobile operator partners around the world, making F-Secure the global leader in this market. The solutions are also available as licensed products through thousands of resellers globally.

F-Secure aspires to be the most reliable security provider, helping make computer and smartphone users' networked lives safe and easy. This is substantiated by the company's independently proven ability to respond faster to new threats than its main competitors. Founded in 1988 and headquartered in Finland, F-Secure has been listed on the OMX Nordic Exchange Helsinki since 1999. The company has consistently been one of the fastest growing publicly listed companies in the industry. The latest news on real-time virus threat scenarios is available at the F-Secure Data Security Lab weblog at <http://www.fsecure.com/weblog/>.

CEO's letter 2007

Dear F-Secure customers, shareholders, partners and employees,

I would like to express my sincere thanks for the exciting year with the F-Secure community all around the world!

What used to be Information Technology is increasingly becoming Interaction Technology, and thus our modern lives are increasingly connected. We are connected to other people around the planet, we are connected to various services, and we connect through many different types of digital devices. Life has become Connected. During 2007 approximately 166 million more people worldwide joined the 1.1 billion of us already enjoying the opportunities of Connected Life on the Internet. And what is very encouraging for F-Secure is the increasing amount of these new Internet citizens that protect their experience by using Security as a Service from the F-Secure partner community! As the role of Information and Communication Technology (ICT) continues to become more central in life and business, the importance of our work as the security experts and as a trusted partner for Service Providers globally will continue to increase. This also implies an increasing social responsibility of enabling safe and easy Internet experiences, and for safeguarding continuity in terms of service access and connectedness.

It is an inspiring role for F-Secure Fellows to be serving on-line Internet users globally as we enable millions of customers to experience the Internet in a trusted manner. As Connected Life becomes a reality for more people (some estimate that 5 billion people will be connected by 2015, primarily through smartphones!) we can also foresee that the combination of information technology, value added services, and Internet security services continue to offer exciting service opportunities for our partners and ourselves. This opportunity to jointly innovate new services and to have an increasingly relevant role in serving society strongly motivates us to strive for new heights as a workplace and as a company.

On-line wellbeing spurs growth of on-line services

As our lives become connected through ICT the protection of our digital devices and the quality of the service experience become aspects of our wellbeing. This is what we call on-line wellbeing, and it is the approach that F-Secure has adopted for planning its future. Increasing the level of on-line wellbeing for Internet users will be an effective way to encourage higher adoption rates for new value added services.

Availability of on-line services is nothing new to the global Internet community. What is changing is the innovation of new tailored services for specific customer segments. With the natural evolution of Internet related services, the industry is recognizing that the requirements for a great on-line experience differ between unique customer segments. By nature, as the Internet offers an expanded set of opportunities, we will see a clear segmentation of needs between technically advanced users on one hand, and on the other hand the bulk of Internet users where ease of use and support is valued the most.

A clearer focus on unique customer segment based needs also supports the objective of mass adoption of new technologies and services. Initially we experience a narrow market penetration of new technologies while the mass market waits for the "hassle free" experience and the availability of more personalized services. This is the stage we are currently at within the Internet related services industry. Antivirus and Internet security products were initially deployed by the technically advanced users, while the non-technical users may have had a product on their PCs which the security updates were 30 days old – and thus offering no real protection. Today the most popular way of staying protected is to subscribe to a security service from the Internet Service Provider, who already has the interest and tools to support their customers in achieving on-line wellbeing. In the future we can expect to see an expanded set of services to augment the total user experience, thus enabling people to do more with their Connected Lives.

As innovation makes new services available, and as new types of digital devices proliferate, there will be a natural demand for services that enable a trusted and easy experience. This is the area where you will see F-Secure continue to play an active role as we innovate new tools, technologies and related services with our Service Provider partners, with one ultimate goal in mind – a great customer experience for the global on-line community. To achieve wellbeing in our Connected Lives we will have a continuing need for up to date protection against the latest Internet threats – whether we access it through fixed or mobile networks.

Internet threats: a storm beneath the calm surface

The motivation for Internet criminality today is money, not publicity. These illegal activities use techniques like trojans and bot software to distribute spam and phishing attacks, but are quite successful in staying invisible to the infected users. The invisibility of the attacks has made the topic relatively uninteresting for the media, and consequently the public perception is that the malware front is fairly quiet today.

This is far from the truth. During 2007 alone the amount of malware doubled and reached the level of half a million at the end of the year. This illustrates how the criminals have been able to ramp up their innovative capacity, and have produced as much malware in one year as was produced over the previous 20 years in total.

One widely visible attack during 2007 was the "Storm Worm" – Storm being the umbrella name for a collection of backdoor trojans and e-mail worms. They used sensationalized versions of real news headlines as a template, and this proved to be a very clever bit of social engineering. Storm initially penetrated millions of PCs around the world, accumulating massive computer power and gaining significant media attention. From a technical perspective this attack is another example of the innovation capabilities of Internet criminals. It was the first totally distributed botnet with no centralized control points, making it very difficult to take down. This botnet also had the capability to

actively defend itself against virus researchers through launching a distributed denial of service attack against investigators' computers.

The threat level for mobile phones remained low during 2007. One new phenomenon was the increasing availability of spying software. While the design, sales and purchase of such software is quite legal per se, it is very difficult to find any legal use of such software. The typical uses of these products include the surveillance of individuals' spouses with features like remote listening of the phone and remote downloading of messages and contact lists.

Moving forward, new Security as a Service related innovations and technologies continue to be high on the agenda for security companies. This is the only way to protect Internet users from the dangers of the on-line world.

Serving customers globally with 166 Service Provider Partners

The threat scenario is becoming more complex and consequently it is getting harder for both consumers and small or medium sized businesses to maintain the necessary expertise and updated technology that an effective protection level requires. A good way to address this problem is to acquire security as a service from a Service Provider.

During the past year we have been fortunate to expand to 166 Service Provider (SP) partnerships, with a total potential of more than 50 million broadband customers to serve. With such a large addressable market we can also see a strong demand for new services and thus great opportunities to innovate such services, creating new and interesting business opportunities for our combined ecosystem. With the new access methods (e.g. Wi-Fi) and a constantly increasing multitude of digital devices the simplicity of the user experience and the reliability of support will become ever more important. We share a common interest with our SP partners for service innovation, revenue increase, and churn reduction, and over time we will see an unparalleled portfolio of services offered to simplify the Internet experience for both consumers and business customers.

This is the world where F-Secure is at its best. We have been the pioneer in Security as a Service – being one of the very first companies to prove the business logic of delivering high quality and scalable software services over the Internet. The Security as a Service concept will likely expand to other software and service areas in the future. The best starting point for expansion is to utilize the significant experience and knowledge we already have, listen to our customers and partners – and be very open for future innovation.

F-Secure celebrates its 20th Anniversary in 2008!

Our company was founded in 1988 and we will celebrate our 20 year anniversary in May this year. During these 20 years we have grown from a company servicing x86 PCs to the approximately 100m€ company we are today, with global

presence and a unique recognized competency profile. We see our future business landscape as more dynamic than ever.

With this 20 year history we are proud to continue our passionate pursuit of customer satisfaction and business expansion. For the F-Secure Fellows, we continue to foster our core value of RELIABILITY at the center of our value set. With this value commitment, and encouraged by our achievements so far, we also expect to further set the standards for high quality, reliable software services and an unparalleled focus on customer satisfaction.

On-line wellbeing with passion

We all can anticipate rapid innovation in the global market – and it is also up to us to take advantage of these opportunities. Today, our global reach is greater than ever, so we have entered the year 2008 with healthy and high ambitions to be at the forefront of new service innovation. With our passion for innovation and growth we are expecting a very inspiring and exciting future!

*Sincerely,
Kimmo Alkio*

Board of Directors' Report 2007

Business at the Group Level

For the full year 2007 total revenues were 96.8m (80.7m), representing 20% growth. EBIT was 19.5m (8.9m including the 4.8m write-off of the Network Control product) and 20% of revenues, representing 120% growth. Cash flow was 17.6m positive (5.4m positive). Deferred revenues were 31.9m at the end of the year (27.6m at the end of 2006).

The Annual revenues were in line with the given guidance at the beginning of 2007 (guidance 95m \pm 10%). The profitability was better than guided at the beginning of 2007 (guidance 14-18% of revenues).

The Total costs were 70.6m (65.2m including the 4.8m write-off of Network Control product), representing 8% growth. The Group capitalizes some of its development expenses according to the accounting rules. This had no material impact on the cost level.

The geographical breakdown of the business was as follows: Nordic Countries 39% (37%), Rest of Europe 43% (44%), North America 9% (10%) and Rest of the World 9% (9%). Anti-virus and intrusion prevention represented 99% of the total revenues.

Business in ISP Segment

Strong development in the Group's key strategic segment, the Service Provider business, continued. The Annual revenues through the Internet Service Provider (ISP) partners were 35.9m (26.0m), representing 37% of the total revenues (32%) and a growth of 38% from the previous year.

A total of 30 new ISP partnerships were signed during the year. The total number of ISP partners was 166, operating in 36 countries at the end of 2007.

The total number of the Group's ISP partners is significantly larger than those of any other security service vendor. At the end of 2007 the Group's ISP partners held approximately 37% (34%) market share of total high-speed consumer connections in Europe, approximately 10% (10%) in North America and approximately 9% (n/a%) in APAC (Source: Dataxis and F-Secure).

Business through Other Channels

The Revenues through traditional sales channels, including Value Added Resellers, IT Service Providers, Managed Security Service Providers, e-Store and Retail channels were 60.8m (54.7m) representing 63% of total revenues (68%) and a growth of 11% from the previous year.

Mobile Security

Mobile security revenues were at the level of approximately 2% of the Group's total annual revenues. Mobile revenues are included in the above-mentioned channel revenues and the percentage figure is shown as an indicator only.

F-Secure started a long-term co-operation with Sony Ericsson at the end of the year. The co-operation is seen as an important element in enabling future mobile revenue streams.

Close co-operation with Nokia and Sony Ericsson together with the current operator partnerships, such as Orange UK, Orange Switzerland, T-Mobile Germany, T-Mobile UK, Swisscom, TeliaSonera and Elisa, is the prime vehicle to make mobile security applications available to a large number of end users. Co-operation initiatives with other major mobile operators are also progressing well.

F-Secure's co-operation with Nokia continued strong. F-Secure Mobile Anti-Virus continues to be available for the majority of the currently shipping or upcoming Nokia S60 3rd edition devices, Nseries & Eseries.

Products & Services, Research and Development

During the year F-Secure continued to introduce new solutions and versions to both business and consumer customer segments.

Key announcements were the security as a service concept to business customers (Protection Service for Businesses 3.0/3.1), and its counterpart to consumers (F-Secure Protection Service for Consumers). F-Secure Health Check to Service Providers was pre-released at the end of the year and the public launch took place in January 2008.

F-Secure Client Security (for businesses) and F-Secure Internet Security 2008 (for consumers) were key launches to be sold through traditional channels.

F-Secure continued its solid co-operation with Microsoft. The Group was announced as the first security partner for Microsoft's Windows Home Server platform. Earlier in the year F-Secure Internet Security 2007 2nd Edition added support for the Microsoft Vista operating system for consumer customers. Another important announcement was F-Secure Mobile Anti-Virus 4.0 for Windows Mobile.

Competitive Situation

There were no significant changes in the competitive landscape during the year. Pricing levels have remained relatively stable. However, there have been occasional signs of increasing price competition in some countries.

Microsoft's entry into the content security market did not represent any major competitive pressures during the year.

Customer Satisfaction

F-Secure renewed its annual customer satisfaction survey at the end of the year. The survey was updated to cover customer and product satisfaction in more detail and was extended to new areas such as user experience. The new survey and methodology provide F-Secure with more accurate and detailed information in the following areas: customer demography, overall satisfaction, purchasing experience, support services, F-Secure web, detailed product satisfaction, and user experience.

The overall satisfaction reached a commendable 4.1 on a scale from 1 to 5.

Financing

The Group's financial position remained strong. The Group's equity ratio on December 31, 2007, was 82% (80%). Financial income for 2007 was 1.9m (1.5m).

During 2007 cash flow was 17.6m positive after paid dividend of 3.1m (5.4m positive after paid dividend of 10.8m). The market value of the liquid assets of the Group on December 31, 2007 was 84.1m (66.7m).

The change in the USD-EUR exchange rate has had a slightly negative effect on revenues and results.

Capital Expenditures

The Group's capital expenditures during 2007 were 2.2m (3.7m). These consisted mainly of IT hardware, software and capitalization of development expenses.

Shares, Shareholders' Equity, and Option Programs

F-Secure has one class of shares, each share entitled to one vote. The Company does not own any of its own shares.

During the year, a total of 74,620 F-Secure shares were subscribed for with the A1/A2 warrants and a total of 44,200 F-Secure shares were subscribed for with the B1/B2/B3 warrants, and a total of 1,050 F-Secure shares were subscribed for with the C1/C2/C3 warrants attached to the F-Secure 2002 Warrant Plan.

In aggregate the number of shares was increased by 119,870 because of the above-mentioned subscriptions. The corresponding increase in the share capital, in total EUR 1198.70, has been registered in the Finnish Trade Register. F-Secure received as additional shareholders' equity a total of EUR 86,197.00.

On October 31, the 2002 C3-warrants of F-Secure Corporation were consolidated into 2002 C1/C2-warrants. Following that the name of the warrants is F-Secure Corporation 2002 C1/C2/C3 warrants and their ISIN-code is F10009610190.

F-Secure Corporation's share premium was decreased during the third quarter in accordance with the Annual General Meeting's decision and the amount (FAS 36,000,000; IFRS 33,582,113) was transferred to the company's distributable equity.

After the reporting period a total of 68,880 F-Secure shares were subscribed for with the A1/A2 warrants and a total of 5,900 F-Secure shares were subscribed for with the B1/B2/B3 warrants attached to the F-Secure 2002 Warrant Plan. In aggregate the number of shares was increased by 74,780. The corresponding increase in the share capital, in total EUR 747.80 was registered in the Finnish Trade Register on January 7, 2008. F-Secure received as additional shareholders' equity a total of EUR 46,638.00.

The share capital of F-Secure currently is EUR 1,551,311.18 and the total number of shares is 155,131,118. The corresponding number of shares fully diluted would be 161,464,443 including all stock option programs.

Capital Management

The objective of the Group's capital management is to aim at an efficient capital structure that ensures the functioning of business operations and promotes the increase of shareholder value. The Group has a goal to improve its current capital structure. The review of the Group's capital structure belongs to the standard follow-up indicators of the Group's financial performance.

The decision of the Annual General Meeting on March 20, 2007, to decrease the share premium and transfer the decreased amount to distributable equity enables various actions to be taken to boost the efficiency of the equity and/or to return the equity to shareholders.

The dividend policy of F-Secure Corporation is to pay approximately half of its annual profit as dividend. Subject to circumstances, the company may deviate from this policy.

Personnel and Management

The Group's personnel numbered 566 at the end of the year, average 528 (479 at the end of 2006, average 439).

The Group's Executive Team consisted of the following persons: Mr. Ari Alakiuttu (Vice President, Products and Services), Mr. Kimmo Alkio (President and CEO), Ms. Eila Mustala (Vice President, Human Resources), Mr. Trond Neergaard (Vice President, Marketing), Mr. Pirkka Palomäki (Senior Vice President, Research and Development), Mr. Antti Reijonen, (Vice President, Strategy), Mr. Taneli Virtanen (Chief Financial Officer) and Mr. Travis Witteveen (Senior Vice President, Sales and Geography Operations).

The Group has re-organized its operations at the beginning of the year 2008 and adjusted the line-up of its Executive Team accordingly. The current Executive Team consists of the following persons: Mr. Ari Alakiuttu (Vice President, Human Resources), Mr. Kimmo Alkio (President and CEO), Mr. Trond Neergaard (Vice President, ISP Business), Mr. Pirkka Palomäki, (Chief Technology Officer), Mr. Antti Reijonen, (Vice President, Strategy), Mr. Taneli Virtanen (Chief Financial Officer) and Mr. Travis Witteveen (Senior Vice President, Sales and Geography Operations).

Corporate Governance

F-Secure complies with the Corporate Governance recommendations for public listed companies published in December 2003 by OMX Nordic Exchange Helsinki, the Central Chamber of Commerce of Finland and the Confederation of Finnish Industry and Employers as described on the Group's web pages.

The Annual General Meeting (AGM) of F-Secure Corporation was held on March 20, 2007. The Meeting confirmed the financial statements for the fiscal year 2006. The members and the deputy member of the Board of Directors and the managing director were granted a discharge from liability. Other AGM decisions were as follows:

It was decided to distribute a dividend of EUR 0.02 per share. The dividend was paid on March 30, 2007.

It was decided that annual compensation for the member is EUR 20,000 and 10,000 stock options (2005 C -series), for the vice chairman EUR 30,000 and 15,000 (2005 C -series) share options and for the chairman EUR 40,000 and 20,000 (2005 C -series) share options. Members of the board that are employed by the Group, will not be compensated. In addition, it was decided that annual compensation for vice chairman share options for 2006 is EUR 30,000 and 15,000 (2005 B -series).

It was decided that the number of Board members would be six. The following members were elected: Mr. Marko Ahtisaari, Mrs. Sari Baldauf, Mr. Pertti Ervi, Mr. Ari Hyppönen, Mr. Risto Siilasmaa, and Mr. Alexis Sozonoff. The Board elected in the first meeting Mr. Risto Siilasmaa as Chairman of the Board and Mr. Pertti Ervi as Vice Chairman.

It was decided to pay auditor's fees against approved invoices. Ernst & Young Oy was elected the Group's auditors. APA, Mr. Erkki Talvinko is acting as responsible partner.

The Board was authorized to decide on directed share issues and their terms. The authorization is valid for the period of one year. The maximum cumulative number of issued new shares is 40,000,000. The authorization has remained unused.

The Board's proposal to decrease the company share premium by EUR 36 million by transferring the decreased amount to the company's distributable equity was approved.

AGM approved the amendment of the Articles of Association as proposed by the Board.

After the reporting period, in early 2008, the Board decided to establish an Audit Committee and an Executive Committee (nomination and remuneration topics). It has nominated Mr. Pertti Ervi to chair the Audit Committee and Ms. Sari Baldauf to chair the Executive Committee.

Risks and Uncertainties in the Near Future

The Group has not seen any material changes to the risks and uncertainties during the year, and it does not foresee any such changes in the near future.

The most important strategic risks and uncertainties of the Group are related to, among other things, the competitiveness of the Group's product portfolio, competitive dynamics in the content security industry, the impact of changes in technology, and the overall development of value added security solutions in the Service Provider and mobile operator market.

In addition, the Group faces many operational risks and uncertainties related to, among other things, the ability to recruit and retain key individuals with the right skill set to guarantee the timely and successful commercialization of complex technologies as new products and solutions, the sustainability of partner relationships, the ability to follow up with the service quality level requirements, the ability to protect intellectual property (IPR) in the Group's solutions, the use of third party technologies on reasonable commercial terms, and the sustainability of subcontracting relationships.

Disputes

In December 2006, Diagnostics Systems Corporation filed a patent infringement lawsuit against F-Secure, Inc. and six other co-defendants in the State of California. A trial has been re-scheduled for March 2009. The Group believes that these claims have no merit and does not expect any material impact on its financials.

The dispute process with SRV Viitosen Oy remains open. F-Secure has appealed to change the verdict sentenced by the Helsinki District Court in September 2005. F-Secure is accruing the costs of a possible negative outcome over the period of the lease contract.

Events after the Reporting Period

There were no significant business related events after the reporting period.

Strategy Outline and Future Outlook

The Group's first priority is to drive strong growth. The core growth element continues to be the ISP channel.

The Group continues to invest in new sales and marketing activities to build scalability for future growth especially for service providers and in the mobile segment. The Group continues to pursue innovations in security-related technologies, as well as in new services related to the online wellbeing of Internet users.

Management expects full year 2008 revenues to be between 110 and 120 million and full year EBIT between 19 and 23% of revenues. In the 2-4-year horizon the Group aims to continue to exceed the average market growth rates in revenues and seeks an EBIT level around 25%.

The Quarter-over-quarter growth rate in the ISP business is expected to remain strong, around 10% as a quarterly average in 2008. However, in the first quarter of 2008 the growth rate is expected to be below the planned quarterly average of the year.

In the mobile security business revenues are expected to grow steadily. However, it is expected to remain a small part of the Group's revenues during 2008.

The First quarter 2008 revenues are estimated to be between 26m and 28m. Fixed costs are estimated not to exceed 20m in Q1.

The revenue estimates are based on the sales pipeline at the time of publishing, existing subscriptions and support contracts and a EUR/USD exchange rate of 1.45.

Dividend Proposal

The distributable shareholder's equity of F-Secure Corporation is totally 64m. The Board proposes to the Annual General Meeting that a dividend of EUR 0.07 per share to be paid, approximately 10.9m over the total number of shares. There have been no material changes in the financial situation of F-Secure Corporation after the closing of 2007. The Company's solvency is good and the proposed dividend will not jeopardise it.

F-Secure Consolidated NOTES TO THE FINANCIAL STATEMENTS

Corporate information

F-Secure produces services and software protection for individuals and businesses against computer viruses and other threats coming through the Internet or mobile networks.

The parent company of the Group is F-Secure Corporation incorporated in Finland and domiciled in Helsinki. Company's registrant address is Tammasaarekatu 7, 00180 Helsinki. A copy of consolidated financial statement can be received from Internet address www.fsecure.com or parent company's registrant address.

In their meeting on 13 February 2008, the Board of Directors of F-Secure Corporation have agreed to permit the publication of the consolidated financial statements of F-Secure Corporation for the year 2007. According to the Finnish Companies Act, the Annual General Meeting can confirm or reject the consolidated

financial statement after publication. The General Annual Meeting can also decide to change the financial statement.

ACCOUNTING PRINCIPLES

Basis for presentation

The consolidated financial statements of F-Secure Corporation have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU. The disclosures also conform to Finnish Accounting legislation.

The Group has adopted the following new or amended Standards and Interpretations during the year.

IFRS 7 Financial Instruments: Disclosures. The new disclosures are included throughout the financial statements.

IAS 1 Amendment: Capital Disclosures. The new disclosure is included the financial statements.

IFRIC 8: Scope of IFRS 2. As the Group had no such arrangement mentioned in the interpretation during this period

or previous periods, the interpretation had no impact on the financial statement.

IFRIC 9: Reassessment of Embedded Derivates. As the Group had no such arrangement mentioned in the interpretation during this period or previous periods, the interpretation had no impact on the financial statement.

Use of estimates

The preparation of financial statements in accordance with IFRS requires the use of estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during reporting periods. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates. The key assumptions concerning the future and other key sources of estimation, that have a significant risk of causing an adjustment to the carrying amounts of assets and liabilities, are impairment of assets and development expenditures carried forward. More details are given in disclosure 10. Impairment testing of goodwill.

Principles of consolidation

Subsidiaries in which F-Secure Corporation's holding exceeds 50 percent are consolidated in the financial statements. Subsidiaries are consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. The Company's holding in the associated companies is also consolidated. The Group's investment in its associate is accounted for under the equity method of accounting. The income statement reflects the share of the results of operations of the associate. Equity accounting is discontinued when the carrying amount of the investment in an associated company reaches zero, unless the Group has incurred or guaranteed obligations in respect of the associated company.

All intra-group transactions and balances, including unrealized profits arising from intra-group transactions, have been eliminated on consolidation. Where necessary, the accounting policies of subsidiaries have been adjusted to ensure consistency with the policies adopted by the Group.

Goodwill

Mutual ownership of shares has been eliminated using the purchase method of accounting. The cost of an acquisition is measured at the fair value of the assets given up, shares issued or liabilities undertaken at the date of acquisition plus costs directly attributable to the acquisition. The excess cost of acquisition over the fair value of the net assets of the subsidiary acquired is recorded as goodwill. Goodwill represents the excess of purchase cost over the fair value of assets less liabilities of acquired companies. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

Foreign currency translation

The presentation currency of F-Secure Group is the euro, which is the measurement currency of the parent. For purposes of inclusion in the consolidated financial statements, the balance sheet of each foreign entity is translated into euros at the exchange rates prevailing at the balance sheet date. The income statement of each foreign entity is translated at the average exchange rates for the financial year. The resulting net translation difference is recorded in the shareholders' equity.

The Consolidated Cash Flow Statement has been prepared by translating each subsidiary's individual cash flow statements at the average exchange rates for the financial year.

Foreign currencies are translated into the local currency using fixed monthly exchange rates. At the balance sheet date, assets and liabilities denominated in foreign currencies are translated at the rates of exchange prevailing at that date. Exchange rate gains and losses of financial transactions are recognized in the income statement under financial items.

Tangible and intangible assets

Other tangible assets include renovation costs of rented office space. Intangible assets include software licenses. Intangible assets recognized separately from goodwill in acquisitions consist of technology-based intangible assets. Tangible and intangible assets are recorded at historical cost less accumulated depreciation. Depreciation is recorded on a straight-line basis over the estimated useful life of an asset. The estimated useful lives of tangible and intangible assets are as follows:

| | |
|-------------------------------|------------|
| Machinery and equipment | 3–8 years |
| Other tangible assets | 5–10 years |
| Capitalized development costs | 3 years |
| Intangible assets | 5–10 years |

Ordinary repairs and maintenance costs are charged to the income statement during the financial period in which they are incurred. The cost of major renovations is included in the assets' carrying amount when it is probable that the Group will derive future economic benefits in excess of the originally assessed standard or performance of the existing asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the year the asset is derecognized.

Government grants

Government grants are recognized at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate. These grants are recognized as other operating income in the income statement. Government grants related to an asset are deducted from the acquisition cost of the asset and recognized as income by reducing the depreciation charge of the asset they relate to.

Research and development costs

Research costs are expensed as incurred. Development expenditures incurred on individual projects of totally new products or product versions with significant new features are carried forward when they are technically feasible and their future recoverability can reasonably be regarded as assured.

Inventories

Inventories are valued at the lower of cost and net realizable value with cost being determined by first-in first-out method. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Leases

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. The Group has only operating leases. Operating lease payments are recognized as an expense in the income statement on a straight-line basis over the lease term. Leases of unused office space are recognized as other operating income in the income statement on straight-line basis over the lease term.

Impairment of assets

At each reporting date, the Group assesses whether there is any indication that an asset may be impaired. Where an indicator of impairment exists, the Group makes a formal estimate of recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and written down to its recoverable amount. Recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. The increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Impairment losses relating to Goodwill cannot be reversed in future periods.

Pensions

All of F-Secure Group's pension arrangements are in accordance with local statutory arrangements and defined contribution plans. Contributions to defined contribution plans are recognized in the income statement in the period to which the contributions relate. The Group recognizes disability commitment of Finnish TYEL pension plan when disability appears.

Share-based payment transactions

In the Company's industry it is common practice internationally that incentives are provided to employees in the form of equity-settled share-based instruments, warrants. The Company's warrant programs cover key personnel. The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by using the Binomial model. The cost of equity-

settled transactions is recognized, together with a corresponding entry in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (vesting date). If the holder of the warrant leaves company before vesting the warrant is forfeited. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the number of awards that, in the opinion of the directors of the Group at that date, based on the best available estimate of the number of equity instruments that, will ultimately vest.

The Group has two warrant programs in force, which were issued before the new Company Act September 1, 2006. Proceeds from exercised warrants concerning these programs are recognized in shareholders' equity under share capital and share premium fund.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

As the market price of the Company's share rises, the value of the warrant program rises accordingly. This will generate taxable income to the personnel when the warrants are realized. In certain countries the employer must pay social charges based on the taxable income triggered by the realization of the warrants. The provision has been matched against the realized social costs. The provision is measured based on the fair value of the options, and the amount of provision is adjusted to reflect the change in the share price. The market price of the Company's share as of December 31, 2007 was 2.45 euro.

In September 2005, by the decision of Helsinki District Court, F-Secure was sentenced to pay additional construction and refurbishment work done at the Group's headquarter premises and litigation costs plus interest to SRV Viitotset Oy. F-Secure considers that the work was already covered by the original rental agreement and has appealed to change the verdict. Even though the case is still open F-Secure decided to recognize the obligation. Construction costs are allocated over the rental period until the year 2010 starting September 2005.

Income taxes

Direct current taxes are calculated on the results of all Group companies in accordance with the local tax and accounting rules in each country. Deferred taxes, resulting from temporary differences between the financial statement and the income tax basis of assets and liabilities, use the enacted tax rates in effect in the years in which the differences are expected to reverse. Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available.

Revenue recognition

Revenue is primarily derived from software license agreement sales and monthly content security service sales. License agreements consist of initial license agreements and periodic maintenance agreements covering product updates and customer support. The revenue recognition policy of F-Secure

Group recognizes the license fee revenues as the product is delivered, and the maintenance revenues are recognized ratably over the period covered by the maintenance contract, and the service revenue is recognized at the time of delivery. Indirect taxes, discounts granted and exchange rate differences are excluded from net sales.

Other operating income

Other operating income includes profits from the sales of fixed assets, rental revenue, and government grants received for research and development projects.

Presentation of expenses

Classification of the functionally presented expenses has been made as follows: various types of expenses in different geographical locations have been allocated to the various functions by allocating to directly allocable expenses to the respective function, and other operating expenses have been allocated to functions on the basis of average headcount in each location.

Financial assets

According to IAS 39 standard, financial assets have been classified into financial assets at fair value through profit or loss, held-to-maturity, loans and receivables originated by the enterprise and available-for-sale financial assets. The classification is dependent on the purpose for which the assets were acquired. Purchases and sales of financial assets are recognized on the trade date i.e. the date that the Group commits to purchase the asset. The cost of purchase includes transaction costs. Financial assets are currently classified as loans and receivables and available-for-sale financial asset.

Loans and receivables originated by the enterprise are measured at amortized cost. Trade receivables are carried at the original invoice amount to customers less an estimate made for doubtful receivables. Outstanding receivables are reviewed periodically and bad debts are written off when identified.

Available-for-sale financial assets consist of interest-bearing debt securities and shares in mutual funds invested in similar instruments. For assets that are actively traded in organized financial markets, fair value is determined by reference to Stock Exchange quoted market bid prices at the close of business on the balance sheet date. Assets, the fair value of which cannot be measured reliably, are recognized at cost less impairment. The fair value changes of available-for-sale financial assets are recognized in shareholders' equity under fair value reserve. When financial assets recognized as available-for-sale are sold, the accumulated fair value changes are released from equity and recognized in the income statement.

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and other highly liquid short-term investments.

For the purpose of the consolidated cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above.

Derivative financial instruments and hedging

The Group uses derivative financial instruments such as forward currency contracts to hedge its risks associated with foreign currency fluctuations. Such derivative financial instruments are

initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Any gains and losses arising from changes in fair value on derivatives that do not qualify for hedge accounting are taken directly to net profit or loss for the year. The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles.

Adoption of new and revised standards

The Group has not applied the following new or revised Standards and Interpretations that have been issued, but are not yet effective.

IFRIC 11: IFRS 2 - Group and Treasury Share Transactions. The Group expects that adoption of the Interpretation will have no impact on the Group's financial statements in the period of initial application. Interpretation becomes effective for financial years beginning on or after 1 March 2007 and is adopted by the EU.

IFRIC 12: Service Concession Arrangements. The Group expects that adoption of the Interpretation will have no impact on the Group's financial statements in the period of initial application. Interpretation becomes effective for financial years beginning on or after 1 January 2008 and is not adopted by the EU.

IFRIC 13: Customer Loyalty Programmes. The Group expects that adoption of the Interpretation will have no impact on the Group's financial statements in the period of initial application. Interpretation becomes effective for financial years beginning on or after 1 July 2008 and is not adopted by the EU.

IFRIC 14: IAS 19 - The Limit on a Defined Benefit Asset, Minimum Funding Requirements and the Interaction. The Group expects that adoption of the Interpretation will have no impact on the Group's financial statements in the period of initial application. Interpretation becomes effective for financial years beginning on or after 1 January 2008 and is not adopted by the EU.

IFRS 8 Operating Segments. The Group expects that adoption of the new Standard will have impact on the disclosures of Group's financial statements in the period of initial application. Standard becomes effective for financial years beginning on or after 1 January 2009 and is adopted by the EU.

IAS 23 Amendment: Borrowing costs. The Group expects that adoption of the revised Standard will have no impact on the disclosures of Group's financial statements in the period of initial application. Amended standard becomes effective for financial years beginning on or after 1 January 2009 and is not adopted by the EU.

IAS 1 Amendment: Presentation of Financial Statements. The Group expects that adoption of the revised Standard will have impact on Group's financial statements in the period of initial application. Amended standard becomes effective for financial years beginning on or after 1 January 2009 and is not adopted by the EU.

F-Secure Consolidated NOTES TO THE FINANCIAL STATEMENTS

(EUR 1000)

1. SEGMENT INFORMATION

The Group's primary reporting format is business segment and its secondary format is geographical segment. The Group has one business segment; data security. The Group's geographical segments are determined by the location of the Group's assets and operations.

Geographical segments

14. AVAILABLE-FOR-SALE FINANCIAL ASSETS

Available-for-sale financial assets consist of interest-bearing debt securities and shares in funds invested in similar instruments. For assets that are actively traded in organized financial markets, fair value is determined by reference to Stock Exchange quoted market bid prices at the close of business on the balance sheet date. Assets, which fair value cannot be measured reliably, are recognized at cost less impairment. The fair value changes of available-for-sale financial assets are recognized in shareholders' equity under fair value reserve.

| | Consolidated 2007 | Consolidated 2006 |

| 31.12.2007 | 155 056 338 | 1 550 | 120 | 33 582 | 35 253 |

The share capital amounted to 1,550,563 euro and the number of shares was 155,056,338 at the end of the year 2007.

Share premium fund

Proceeds from exercised warrants are recognized under the share capital and share premium fund.

Unrestricted equity reserve

On March 20, 2007, the shareholders' meeting decided to decrease the share premium fund. The decreased amount of 33,582 thousand euro was transferred to unrestricted equity reserve.

Translation differences

The translation difference is used to record exchange difference arising from the translation of the financial statements of foreign subsidiaries.

Fair value reserve

The reserve is used to record increments and decrements in the fair value of available-for-sale financial assets.

Dividends proposed and paid

Proposed for approval at AGM for year 2007 0.07 euro per share.

Final dividend for year 2006 0.02 euro per share, paid during the year 2007: 3,101,601 euro

Final dividend for year 2005 0.07 euro per share, paid during the year 2006: 10,834,055 euro

F-Secure Consolidated NOTES TO THE FINANCIAL STATEMENTS

(EUR 1000)

17. SHARE-BASED PAYMENT TRANSACTIONS

The Company has had warrant programs since April 1998. During the period the Group had two warrant programs. The Company's warrant programs cover the key personnel. Warrants entitle the holder to subscribe for company shares with subscription price and time defined on each warrant program. If the holder of the warrant leaves the company before vesting, the warrant is forfeited.

The Group has applied IFRS 2 to equity-settled awards granted after November 7, 2002 that had not vested on or before January 1, 2005.

On March 27, 2002, the shareholders' meeting decided to issue a total of 5,500,000 warrants. Each warrant entitles the holder to subscribe for one share. On March 23, 2005, the shareholders' meeting decided to cancel a total of 3,089,275 unallocated warrants. The subscription in full would increase the capital stock by 24,107 euro, which represents 1.6 percent of the Company's share capital and voting power on December 31, 2007. The subscription price of a share in each series is the weighted average price of the Company's shares quoted on the Helsinki Exchanges during the following periods: 2002 A-series: July 1, 2002 – September 30, 2002; 2002 B-series: July 1, 2003 - September 30 2003; 2002 C-series: July 1, 2004 – September 30, 2004. During the financial period, a total of 119,870 shares were subscribed with the warrants attached to this warrant program and consequently share capital was raised by 1,199 euro.

| Plan | Issued | Category | Start | End | Exercise price |
|------|-----------|----------|-----------|------------|----------------|
| | | 2002A | 1.11.2003 | 31.12.2008 | 0.60 |
| | | 2002B | 1.11.2004 | 31.12.2008 | 0.90 |
| | | 2002C | 1.11.2005 | 31.12.2008 | 1.60 |
| 2002 | 2 410 725 | | | | |

On March 23, 2005, the shareholders' meeting decided to issue a total of 4,500,000 warrants. Each warrant entitles the holder to subscribe for one share. The subscription in full would increase the capital stock by 45,000 euro, which represents 2.9 percent of the Company's share capital and voting power on December 31, 2007. The subscription price of a share in each series shall be the trade volume weighted average price of the Company's share quoted on the OMX The Nordic Exchange, Helsinki as follows: 2005A on March 2005; 2005B on March 2006; 2005C on March 2007 and 2005D on March 2008, rounded off to the nearest cent. The subscription price of the stock options shall, as per the dividend recorded date, be reduced by the amount of dividend per share. However, only such dividends whose distribution has been agreed upon after of the period for determination of the share subscription price and which have been distributed prior to the share subscription are deducted from the subscription price. Pursuant to the Companies Act, the share subscription price shall, nevertheless, always be at least the accounting equivalent value per share.

| Plan | Issued | Category | Start | End | Exercise price |
|------|-----------|----------|----------|------------|----------------|
| | | 2005A | 1.3.2008 | 30.11.2009 | 1.73 |
| | | 2005B | 1.3.2009 | 30.11.2010 | 3.15 |
| | | 2005C | 1.3.2010 | 30.11.2011 | 1.97 |
| | | 2005D | 1.3.2011 | 30.11.2012 | - |
| 2005 | 4 500 000 | | | | |

The shares subscribed for on the basis of the warrants shall entitle the holder to dividend for the financial period in which the subscription takes place. Other shareholder rights shall commence upon the entry into the Trade Register of increase of the share capital.

The maximum dilution effect of the issuance of the warrants is 6,408,105 shares on aggregate or 4.0 percent of the Company's share capital after dilution. 5.4 million warrants have been issued from current warrant programs (22.2 million totally) as of December 31, 2007. 4.7 million warrants are held by the subsidiary company DF-Data Oy.

Options outstanding and weighted average exercise price

| | Jan 01 - Dec 31, 2007 | | Jan 01 - Dec 31, 2006 | |
|---------------------------|-----------------------|-----------------------------------|-----------------------|-----------------------------------|
| | Number of options | Weighted average exercise price € | Number of options | Weighted average exercise price € |
| Outstanding Jan 01 | 4 619 172 | 1.85 | 2 716 906 | 1.34 |
| Granted | 585 000 | 1.97 | 2 280 800 | 2.39 |
| Forfeited | 178 490 | 2.33 | 153 884 | 2.25 |
| Exercised | 119 870 | 0.72 | 224 650 | 0.72 |
| Outstanding Dec 31 | 4 905 812 | 1.83 | 4 619 172 | 1.85 |
| Exercisable Dec 31 | 1 801 242 | 1.30 | 1 579 505 | 1.18 |

F-Secure Consolidated NOTES TO THE FINANCIAL STATEMENTS

(EUR 1000)

For options exercised during the period the weighted average share price was 2.41 euro (2.65 euro in year 2006). Options were exercised on a regular basis throughout the period. The Group received 64 thousand euro for exercised option, from which 1 thousand euro was recorded to share capital and the rest to share premium account (2 thousand euro to share capital and 121 thousand euro to share premium in year 2006).

The options outstanding by range of exercise prices

| Exercise price € | December 31, 2007 | | | December 31, 2006 | | |
|------------------|-------------------|--|-----------------------------------|-------------------|--|-----------------------------------|
| | Number of options | Weighted average remaining contractual life in years | Weighted average exercise price € | Number of options | Weighted average remaining contractual life in years | Weighted average exercise price € |
| 0.60 - 1.00 | 603 430 | 1.00 | 0.74 | 722 250 | 2.00 | 0.74 |
| 1.10 - 3.17 | 4 302 382 | 2.86 | 1.98 | 3 896 922 | 3.66 | 2.06 |
| | 4 905 812 | | | 4 619 172 | | |

Expense arising from share-based payment transactions during the period was 902 thousand euro (630 thousand euro in year 2006). The weighted fair value of options granted at the date of grant date was 0.72 euro (0.93 euro in year 2006). The fair value of options granted during the period was determined at the date of grant by using the Binomial model. Used arguments:

| | 2007 | 2006 |
|-----------------------------------|--------|--------|
| Weighted average share price € | 2.09 | 2.51 |
| Weighted average exercise price € | 2.41 | 2.65 |
| Expected volatility | 25.59% | 32.19% |
| Option life in years | 4.8 | 4.8 |
| Risk-free interest rate | 4.08% | 3.90% |
| Expected dividends | - | - |

Expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. Based on previous years, the company has estimated that 2–3% of granted options will be forfeited. When the subscription price has not yet been defined, closing share price as of 31 December 2007 has been used.

18. PROVISIONS

A provision is recognized for the employer's liability for social security contributions on share option gains, which will arise on exercise of the relevant share options, by employees. The provision is calculated based on the number of options outstanding at the balance sheet date outside Finland that are expected to be exercised, and using the market price of the share at the balance sheet date as the best estimate of market price at the date of exercise. It is expected that the costs will be incurred during the exercise period of 1 January 2008 to 30 November 2012.

By decision of Helsinki District Court on September 2005 a provision is recognized for the Group's liability for payment of additional construction work done by SRV for headquarter premises.

| | Consolidated 2007 | Consolidated 2006 |

| Total | 100 094 | 79 742 |

The carrying amounts of the Group's financial instruments are equivalent to fair values.

21. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

General

The goal of risk management is to identify risks that may hinder the group from achieving its business objectives. The responsibility for the company's risk management lies with CEO, the management and finally with the Board of Directors. The risks related to the Group's financial instruments are mainly related to credit risks and foreign currency fluctuations. The Group's available-for-sale assets are also exposed to interest rate fluctuations.

Credit risk

The Group trades only with recognized, creditworthy third parties. Receivable balances are monitored and collected on an ongoing basis with the result that the Group's exposure to bad debts is not significant. There are no significant concentrations of credit risk within the Group. See note 13. Receivables

Foreign currency risk

The Group invoices mainly in Euros. However, there are some transactional currency exposures that arise from sales or purchasing in other currencies. The other main measurement currencies are USD, JPY, SEK and GBP. In order to minimize the impact of the fluctuation of the exchange rates, the goal is to use forward currency contracts to eliminate the currency exposure of the estimated cash flow of these currencies for a period of six months.

Derivatives

Currency instruments – Currency forward contract

| | | |
|---------------|-------|-------|
| Nominal value | 4 846 | 3 808 |
| Fair value | 105 | 34 |

F-Secure Corporation has hedged receivables denominated in USD, JPY, SEK and GBP with a forward rate contract. The forward rate contract expires on January 15 and April 17, 2008. The company does not have other derivatives.

F-Secure Corporation does not hedge investments made in its subsidiaries because the impact of changes of exchange rates would not be relevant in the Group's balance sheet.

Sales in different currencies

| | % | % |
|------------------|-----|-----|
| EUR | 72 | 71 |
| SEK, GBP | 12 | 12 |
| USD, JPY | 13 | 14 |
| Other currencies | 3 | 3 |
| | 100 | 100 |

The risk involved in the sales in foreign currency is notably diminished by the operational expenses in subsidiaries that use the same currency.

Financial assets and liabilities in different currencies

| | % | % |
|----------|-----|-----|
| EUR | 87 | 88 |
| SEK, GBP | 6 | 6 |
| USD, JPY | 7 | 6 |
| | 100 | 100 |

F-Secure Consolidated NOTES TO THE FINANCIAL STATEMENTS

(EUR 1000)

The table below demonstrates how sensitive the Group's profit before taxes is to reasonably possible changes in the USD, JPY, SEK and GBP exchange rate, assuming that all other variables are held constant. The analysis is based on trade receivables and includes forward currency contracts.

| | | Consolidated 2007 | | Consolidated 2006 |
|----------|------|----------------------|-----|----------------------|
| USD, GBP | +10% | -20 | +5% | -76 |
| JPY, SEK | +5% | 22 | +5% | 20 |

Interest rate risk

The Group does not have any interest bearing liabilities. Based on the Group's conservative investment policy, it invests its cash mainly in short term and low risk funds. Investments are made in creditworthy funds. These available-for-sale investments are exposed to market risk for changes in interest risks. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and available-for-sale financial assets. See note 14. Available-for-sale financial assets

Capital management

The objective of the Group's capital management is to maintain an efficient capital structure that ensures the functioning of business operations and promotes the increase of shareholder value. Reviewing the capital structure of the Group is a part of the process for monitoring financial performance. The objective of the Group is to improve its current capital structure.

AGM 2007 made a decision to decrease the share premium to distributable equity. This enables the Group to employ various actions to boost the efficiency of the equity; and/or to return the equity to shareholders.

According to the dividend policy of F-Secure Corporation, approximately half of its annual profit is paid as dividend. The company may deviate from this policy subject to circumstances.

22. NOTES TO CASH FLOW STATEMENT

Legal claims

By decision of Helsinki District Court on September 2005 a guarantee was provided to SRV Viitotset Oy for Group's liability for payment of additional construction work done by SRV for headquarter premises. See disclosure 18. Provisions
Diagnostics Systems Corporation has filed a patent infringement lawsuit against one of F-Secure subsidiaries and six other co-defendants in the State of California. The Group believes that this claim has no merit and doesn't expect any material impact on its financials. Accordingly no provision for any liability has been made in these financial statements.

F-Secure Corporation NOTES TO THE FINANCIAL STATEMENTS

Corporate information

F-Secure produces services and software protection to individuals and businesses against computer viruses and other threats coming through the Internet or mobile networks.

The Parent company of the Group is F-Secure Corporation incorporated in Finland and domiciled in Helsinki. Company's registrant address is Tammasaarekatu 7, 00180 Helsinki. Copy of consolidated financial statement can be received from Internet address www.f-secure.com or the parent company's registrant address.

ACCOUNTING PRINCIPLES

The financial statement of F-Secure Corporation has been prepared in accordance with Finnish Accounting Standards (FAS).

Foreign currency translation

Foreign currencies are translated into the local currency using fixed monthly exchange rates. At the balance sheet date, assets and liabilities denominated in foreign currencies are translated at the rates of exchange prevailing at that date. Exchange rate gains and losses of financial transactions are recognized in the income statement under financial items. Forward rate contracts for hedging purposes are recorded using the exchange rate prevailing at the balance sheet date.

Tangible and intangible assets

Intangible assets include software licenses. Intangible assets recognized on merger consist of technology-based intangible assets. Tangible and intangible assets are recorded at historical cost less accumulated depreciation. Depreciation is recorded

F-Secure Corporation NOTES TO THE FINANCIAL STATEMENTS

on a straight-line basis over the estimated useful life of an asset. The estimated useful lives of tangible and intangible assets are as follows:

| | |
|-------------------------------|------------|
| Machinery and equipment | 3–8 years |
| Capitalized development costs | 3 years |
| Intangible assets | 5–10 years |

Ordinary repairs and maintenance costs are charged to the income statement during the financial period in which they are incurred. The cost of major renovations is included in the assets' carrying amount when it is probable that the Company will derive future economic benefits in excess of the originally assessed standard or performance of the existing asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the year the asset is derecognized.

Research and development costs

Research costs are expensed as incurred. Development expenditures incurred on individual projects of totally new products or product versions with significant new features are carried forward when they are technically feasible and their future recoverability can reasonably be regarded as assured.

Inventories

Inventories are valued at the lower of cost and net realizable value with cost being determined by method first-in first-out method. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Leases

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. The Company has only operating leases. Operating lease payments are recognized as an expense in the income statement on a straight-line basis over the lease term. Leases of unused office space are recognized as other operating income in the income statement on a straight-line basis over the lease term.

Pensions

Pension arrangement is of local statutory arrangement and defined contribution plans. Contributions to defined contribution plans are recognized in income statement in the period to which the contributions relate. The Company recognizes the disability commitment of TYEL pension plan when disability appears.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

In September 2005, by the decision of Helsinki District Court, F-Secure was sentenced to pay additional construction and refurbishment work done at the Group's headquarter premises and litigation costs plus interest to SRV Viitotset Oy. F-Secure

considers that the work was already covered by the original rental agreement and has appealed to change the verdict.

Even though the case is still open F-Secure decided to recognize the obligation. Construction costs are allocated over the rental period until the year 2010 starting September 2005.

Income taxes

Direct current taxes are calculated in accordance with the local tax and accounting rules. Deferred taxes, resulting from temporary differences between the financial statement and the income tax basis of assets and liabilities, use the enacted tax rates in effect in the years in which the differences are expected to reverse. Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available.

Revenue recognition

Revenue is primarily derived from software license agreement sales and monthly content security service sales. License agreements consist of initial license agreements and periodic maintenance agreements covering product updates and customer support. The revenue recognition policy of F-Secure recognizes the license fee revenues as the product is delivered, and the maintenance revenues are recognized ratably over the period covered by the maintenance contract, and the service revenue is recognized at the time of delivery. Indirect taxes, discounts granted and exchange rate differences are excluded from net sales.

Other operating income

Other operating income includes profits from the sales of fixed assets, rental revenue, and government grants received for research and development projects.

Presentation of expenses

Classification of the functionally presented expenses has been made as follows: various types of expenses in different geographical locations have been allocated to the various functions by allocating to directly allocable expenses to the respective function, and other operating expenses have been allocated to functions on the basis of average headcount in each location.

Financial assets

Short-term investments are measured at fair value. Short-term investments consist of interest-bearing debt securities and shares in mutual funds invested in similar instruments. For assets that are actively traded in organized financial markets, fair value is determined by reference to Stock Exchange quoted market bid prices at the close of business on the balance sheet date. Assets, the fair value of which cannot be measured reliably, are recognized at cost less impairment. The fair value changes of short-term investments are recognized in shareholders' equity under fair value reserve. When financial assets recognized as available-for-sale are sold, the accumulated fair value changes are released from equity and recognized in the income statement. Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and other highly liquid short-term investments.

12. SHORT-TERM INVESTMENTS

Short-term investments consist of interest-bearing debt securities and shares in funds invested in similar instruments. For assets that are actively traded in organized financial markets, fair value is determined by reference to Stock Exchange quoted market bid prices at the close of business on the balance sheet date. Assets, which fair value cannot be measured reliably, are recognized at cost less impairment. The fair value changes of short-term investments are recognized in shareholders' equity under fair value reserve.

Auditors' report

To the shareholders of F-Secure Corporation

We have audited the accounting records, the report of the Board of Directors, the financial statements and the administration of F-Secure Corporation for the financial year 2007. The Board of Directors and the Managing Director have prepared the consolidated financial statements, prepared in accordance with International Financial Reporting Standards as adopted by the EU, as well as the report of the Board of Directors and the parent company's financial statements, prepared in accordance with prevailing regulations in Finland, containing the parent company's balance sheet, income statement, cash flow statement and notes to the financial statements. Based on our audit, we express an opinion on the consolidated financial statements, as well as on the report of the Board of Directors, the parent company's financial statements and the administration.

We conducted our audit in accordance with Finnish Standards on Auditing. Those standards require that we perform the audit to obtain reasonable assurance about whether the report of the Board of Directors and the financial statements are free of material misstatement. An audit includes examining on a test basis evidence supporting the amounts and disclosures in the report and in the financial statements, assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall financial statement presentation. The purpose of our audit of the administration is to examine whether the members of the Board of Directors and the Managing Director of the parent company have complied with the rules of the Companies Act.

Consolidated financial statements

In our opinion the consolidated financial statements, prepared in accordance with International Financial Reporting Standards as adopted by the EU, give a true and fair view, as defined in those standards and in the Finnish Accounting Act, of the consolidated results of operations as well as of the financial position. The consolidated financial statements can be adopted.

Parent company's financial statements, report of the Board of Directors and administration

In our opinion the parent company's financial statements and the report of the Board of Directors have been prepared in accordance with the Finnish Accounting Act and other applicable Finnish rules and regulations. The parent company's financial statements and the report of the Board of Directors give a true and fair view of the parent company's result of operations and of the financial position. The report of the Board of Directors is consistent with the consolidated financial statements.

The parent company's financial statements can be adopted and the members of the Board of Directors and the Managing Directors of the parent company can be discharged from liability for the period audited by us. The proposal by the Board of Directors regarding the disposal of distributable funds is in compliance with the Companies Act.

Helsinki, February 13, 2008

ERNST & YOUNG OY
Authorized Public Accountant Firm

Erkka Talvinko

Corporate Governance

General

F-Secure Corporation (the Company) applies principles of sound corporate governance and high ethical standards, complying with the Finnish Companies Act, Securities Market Act and other regulations on the administration of public companies issued by the authorities.

The Company complies with, as explained below, the Corporate Governance recommendations for public listed companies published in December 2003 by OMX Nordic Exchange Helsinki, the Central Chamber of Commerce of Finland and the Confederation of Finnish Industry and Employers.

The key elements of the Company's Corporate Governance system are briefly described below. A more detailed description is available on the Company's web site, as well as detailed descriptions of the Articles of Association, the decisions of the latest Annual General Meeting, the composition of the Board of Directors, the rules of procedure of the Board of Directors, the charter of the committees of the Board of Directors, the composition of the Executive Team and the list of permanent insiders.

Annual General Meeting of Shareholders

The Company's highest governing body is the Annual General Meeting of Shareholders. The Annual General Meeting (AGM) shall be held within a period from the end of the financial year as proposed by the Board of Directors and as defined by the law. The AGM shall confirm remunerations to the Board members and auditors, decide the number of members on the Board of Directors, appoint Board members, approve the financial statement, determine the amount of dividends and select the auditors and other issues as described in Article of Associations of the Company and in Finnish Companies Act.

The decisions of AGM 2007 are presented in the Board of Directors' report on page 6.

Board of Directors

The operation of the Board of Directors is governed by the Finnish Companies Act, the Articles of Association of the Company, decisions of the General Meetings of shareholders, legislation on accounting and the securities market, and the rules of the OMX Nordic Exchange Helsinki.

The Board represents all shareholders. The Board shall always work to the best advantage of the Company and all of its shareholders. The Board shall manage the business of the Company with the aim of achieving the best possible return on invested capital for shareholders in the long term.

The duties and responsibilities of the Board are defined according to the Articles of Association of the Company, the Finnish Companies Act and other applicable laws and regulations. The Board is authorized to deal with any matters, which the law or the Articles of Association do not stipulate to be decided or performed by other organs.

The Board is responsible for making sure that supervision of the Company's accounting and financial management is duly

organized. The meetings of the Board shall regularly discuss reports presented by the CEO of the Company on the financial status and operations of the Company. Furthermore, it is the duty of the Board to prepare matters to be handled by the shareholders' meeting, to decide on the convening of the shareholders' meeting and to make sure that the decisions made at the shareholders' meeting are put into effect.

Any matters that are significant or far-reaching from the Company's point of view shall be dealt with by the Board. These include strategic outlines, approval of budgets and operating plans and supervision of how these are put into effect, acquisitions and corporate structure, any major investments in regard with the Company's operation, organization of the supervision of accounting and financial management, internal monitoring systems and risk management as well as personnel policies and reward systems.

According to the Articles of Association, the Board shall contain a minimum of three and a maximum of seven permanent members. The annual shareholders' meeting shall decide on the number of Board members in accordance with the Articles of Association and elect the Board members. The Board members shall elect a Chairman for the Board from among its members.

The Board members shall also elect a secretary, who may be a non-member of the Board.

The term of the Board members is one year. The term ends at the end of the next Annual General Meeting of Shareholders that follows the election of the Board members. The number of terms of the Board members is not limited. The distribution of tasks or areas of responsibility of the Board members is not specified, except for the Committees set by the Board as described below.

The Board of Directors shall convene upon the request of the Chairman at least five times during its term. The aim is to have meetings at regular intervals as well as when deemed necessary. If at least two Board members request that the Board convenes, the Board shall meet in no less than four weeks from the said request.

The Board of the Company has set up two Committees to assist the Board in its duties: the Audit Committee and the Executive Committee (Nomination and Compensation). The Audit Committee prepares, instructs and evaluates risk management, internal supervision systems, financial reporting and auditing of accounts, and internal auditing. The Executive Committee (Nomination and Compensation) prepares material and instructs with issues related to the composition and compensation of the Board of Directors and remuneration of other members of top management. The Committees are neither decision-making nor executive bodies.

The Annual General Meeting decides on the remuneration to be paid to the members of the Board. The decisions of the AGM on March 20, 2007 related to Board composition and remuneration are described in the Board of Director's report on page 6, alongside with the Board's decisions on the election of Chairman, Vice Chairman and Committee Chairmen.

The majority of Board members shall be independent from the Company and from its major shareholders. Board members shall be fully qualified for the task and able to devote a sufficient amount of time for Board work. Currently four Board members out of six have no dependence on the Company. Mr. Risto Siilasmaa acted as the CEO of the Company before assuming the responsibilities of the chairman of the Board. Mr. Risto Siilasmaa is the biggest shareholder of the Company. Mr. Ari Hyppönen has acted as CTO of the Company and is a major shareholder of the Company. The Board considers that granted options are not significant enough to endanger the independence of the Board.

During 2007 the Board had 14 meetings and the attendance rate was close to 100%.

The Board shall conduct an annual self-assessment of its operations. The purpose of this assessment is to examine how the work of the Board has been carried out during the year. The assessment will also be used as the basis for any further evaluation and improvement of the working methods, practices and composition of the Board.

CEO

The Board shall appoint the CEO and decide upon his/her remuneration and other benefits. The CEO's duties include managing the business according to the instructions issued by the Board, presenting the matters to be dealt with in the Board's meeting, implementing the matters resolved by the Board, and other issues determined in the Companies Act. The Board confirms the salary and other benefits of the CEO. The CEO's retirement age and the determination of his/her pension conform to the standard rules specified by Finland's Employee Pension Act. The period of notice for the CEO is twelve (12) months both ways and there are no separate compensations for dismissal.

During 2007, the CEO, Mr. Kimmo Alkio, was paid a total amount of EUR 426,750 including all bonuses.

Executive Team

The Company's Executive Team assists the CEO in the management and development of the Company. The CEO appoints the executive team members and decides upon the terms and conditions of their employment. The Board of Directors approves compensation for the executive teams. Bonuses and grant of stock options are based on performance of the group and the individual. The Executive Team assembles regularly once a month and separately as needed.

Auditors and Internal Controls

The Company's auditor is Ernst & Young Oy, a firm of Authorized Public Accountants. The auditor's term of service is one year. APA Erkkä Talvinko is acting as responsible partner and is responsible for the direction and coordination of the audit work. The auditor will report to the Board at least once a year. During 2007, the Group paid a total of EUR 108,360 for auditing activities and EUR 71,610 for other services.

The Executive Team, Financial Management and Security Team are responsible for the internal control and instructions in the Company. Regular audits will be performed in the different business units as well as in the subsidiaries. The purpose is to ensure compliance to the consistent administration, accounting practices and information security of the F-Secure Group.

Risk Management

The goal of risk management is to identify risks that may hinder the Company to achieve its business objectives. The responsibility for the Company's risk management lies with the CEO and the Executive Team. The Board of Directors and the committees approve and follow up the reporting procedures, and monitor the adequacy, appropriateness and effectiveness of the Company's business and administrative processes.

Weekly and monthly financial reporting that covers the entire Group is used to monitor how well financial targets are being met. The reports include actual figures, plans and up-to-date forecasts.

The Company has sought to manage the risks relating to its business operations by developing its operating processes and control systems. The Company's risk management team regularly monitors and coordinates activities to mitigate the threats.

The Company does not provide financing outside industry standard payment terms. Invoicing is mainly done in Euros. There is exchange rate risk with some currencies. In order to minimize the impact of fluctuation in exchange rates the goal is to hedge the estimated cash flow of these currencies.

The investment policy of the Company for cash reserves is conservative. Cash is mainly invested in short-term funds and other low risk investments.

The Company's critical IT systems are reviewed externally to ensure their security. The Company monitors systems internally as well.

Insider Regulations and Silent Period

The Company follows the insider regulations of the Helsinki Stock Exchange. Insiders are divided into three categories: (1) permanent insiders including the members of the Board, the auditors, and the Executive Team, (2) permanent company-specific non-public insiders including persons who by virtue of their position or tasks learn inside information on a regular basis, and (3) project based insiders.

Permanent public insiders and permanent company-specific insiders are not entitled to trade shares, options or other securities 21 days prior to publication of interim financial statements or company accounts.

The Company has a Silent Period of 21 days before each quarterly financial report announcement. During the Silent Period the Company will not arrange meetings or conference calls with the investor community.

Board of Directors
