

SECURITY FOR VIRTUAL AND CLOUD ENVIRONMENTS

Uncompromised security with optimal performance for all virtual environments

What's new:

F-Secure Security for Virtual and Cloud Environments (SVCE) is a new solution for any virtual environment, including mixed and hybrid. It combines the best protection of F-Secure client security solutions with optimized performance to cut hardware costs.

Key features:

- Uncompromised, best protection against malware, exploits, phishing and other network based attacks
- Reduced memory, CPU and disk space consumption on virtual machines
- Can be deployed in any virtualization or cloud environment including mixed and hybrid environments
- An added feature for the award-winning endpoint and server protection products
- Malware scanning and content inspection are offloaded to a dedicated Scanning and Reputation Server

SVCE elements

- F-Secure Client Security
- F-Secure Anti-Virus for Workstations
- F-Secure E-mail and Server Security
- F-Secure Server Security • F-Secure Scanning and Reputation Server
- F-Secure Policy Manager

Supported virtualization platforms

Virtualization, SBC and VDI platforms based on major hypervisors:

- VMware ESXi/vSphere
- Citrix XenServer
- Microsoft Hyper-V

For more details about supported virtualization platforms please refer to the latest product release notes.

Supported guest operating systems

F-Secure Security for Virtual and Cloud Environments solution can protect virtualized servers and desktops running the following operating systems.

Workstations

- Microsoft Windows XP (32-bit editions only)
- Microsoft Windows Vista (all 32-bit and 64-bit editions)
- Microsoft Windows 7 (all 32-bit and 64-bit editions)
- Microsoft Windows 8 and 8.1 (all 32-bit and 64-bit editions)

Note: All operating systems are required to have the latest Service Pack installed.

Servers

- Microsoft® Windows Server 2003
- Microsoft® Windows Server 2003 R2
- Microsoft® Windows Server 2008
- Microsoft® Windows Server 2008 R2
- Microsoft® Small Business Server
- Microsoft® Small Business Server
- Microsoft® Small Business Server
- Microsoft® Small Business Server
- Microsoft® Small Business Server
- Microsoft® Small Business Server
- Microsoft® Windows Server 2012
- Microsoft® Windows Server 2012
- Microsoft® Windows Server 2012

Note: All operating systems are required to have the latest Service Pack installed.

Supported languages:

For supported languages please check related product pages.

Compatibility and related products:

- Client Security and Anti-Virus for Workstations versions 11.50 and higher
- E-mail and Server Security version 10.50 and higher
- Scanning and Reputation Server version 11.00 and higher
- Policy Manager for Windows 11.10 or higher
- Policy Manager for Linux 10.30 or higher
