## **SUPPORT FOR F-SECURE(R) MESSAGING SECURITY GATEWAY 7.5**

Dear Customer,

We are sending this email to all customers using F-Secure Messaging Security Gateway with a valid support and maintenance agreement.

This information concerns the following product versions and appliances:

- F-Secure Messaging Security Gateway, version 7.5

Support for the F-Secure Messaging Security Gateway, version 7.5 will come to an end on June 30, 2016, after which we cannot guarantee the functionality of the product. Please note that support for versions earlier than F-Secure Messaging Security Gateway 7.5 is no longer covered either.

## REPLACING PRODUCT VERSION

- F-Secure Messaging Security Gateway, version 8.0.1

When a product version reaches end of life, product updates (including spam, virus, regulatory compliance and other component updates), patches and technical support are no longer provided for that product version.

Please note that without spam and virus updates, your email will no longer be protected from new spam and virus attacks. We are constantly improving our detection techniques, so please make sure to upgrade your system. After 30th June 2016 we cannot guarantee the functionality of this product version for our customers.

## HOW TO SCHEDULE AN UPGRADE

If you are running F-Secure Messaging Security Gateway versions 7.5 or older version, please open a ticket or call to our technical support, so that they can release a new version for you. If you have any questions regarding the upgrade process our technical support can help at you.
